GPR 506

Photoresist for Gravure

GPR 506 is a solution that is required in the etching process of gravure cylinders. It is currently being used as a replacement for the now discontinued TRP-206 L EX JUNSEI.

To Replace

GPR 506 **TPR 206L**

Photoresist 506 - 1 gallon 3,785 litter (1 carton 4 gallons)
Photoresist 507 - 1 bottle 1 litter (1 carton, 18 bottles)
